

Wyandra Fahrezan Angkasa

Fahrezan18004@gmail.com/+6281254487264/Bandung, Indonesia

A recent Biomedical Engineering graduate with a forward-thinking mindset and strong adaptability. Experienced in supporting medical device operations through an internship at IDSmed Indonesia, where responsibilities included assisting with medical device assembly, performing calibration procedures, and contributing to technical tasks related to equipment maintenance and handling. Highly motivated to develop further in 3D prototyping, technology-driven projects, programming, and digital-focused roles, with a strong interest in combining engineering knowledge with innovation to deliver practical solutions in healthcare.
